# 1.0 Introduction

Australian Gambling Statistics (AGS) is the official collection of Australian data on legalised regulated gambling. The AGS is produced by the Queensland Government Statistician's Office (QGSO) in cooperation with all state and territory racing and gaming authorities. These authorities provide data on turnover, expenditure, and government revenue for each form of gambling within their jurisdiction. Where actual data are not available, the relevant authorities are encouraged to estimate the data and provide explanations of estimation methods.

The reference period for the 39th edition of AGS is the 2022–23 financial year. Timeseries are available back to 1997–98, however, may be affected by certain events such as the introduction of point of consumption (POC) tax.

The State, Product and Summary output tables should be read in conjunction with these Explanatory notes as they contain key information relating to background, definitions, jurisdiction specific legislation and other developments.

## 1.1. Background

The development of statistics on gambling on a national basis was formally proposed at the June 1983 Conference of Government Racing Officials held in Darwin. At this conference, members agreed to draw attention to the relative absence of reliable economic and social data on gambling, and resolved that this information be collected, collated, and shared on a national basis.

Led by the existing statistical collections of the (then) Tasmanian Racing and Gaming Commission (the Commission), other state and territory governments developed their own statistical databases to assist in the compilation of a national gambling statistical record.

At the September 1983 Racing and Gaming Ministers' Conference held in Melbourne, it was resolved:

That the conference approves the establishment of a national statistical data bank and each state and territory agree to submit all available racing and gaming statistics in a consistent format to the Tasmanian racing and gaming commission for collation and analysis.

In line with the conference resolution, the Commission, with the assistance of a firm of economic consultants, extracted from published records significant quantities of data relating to gambling turnover in each state and territory since 1972. The first consolidation and assessment of these data was produced for the Racing and Gaming Ministers' Conference in late 1984. At the Commission's request, the report was made publicly available.

The Tasmanian Gaming Commission (the renamed Commission) continued to produce annual statistics until 2004, when QGSO (formerly the Office of Economic and Statistical Research) within Queensland Treasury, was endorsed by jurisdictional department heads to produce the publication on an ongoing basis.

## 1.2. Events affecting data

### Gambling policy and legislation

Gambling policy and legislation in Australia have traditionally been the role of the states and territories rather than the Commonwealth. Relevant state-based legislation is detailed in state and territory summaries in Section 3.

### COVID-19 pandemic

The COVID-19 pandemic impacted on the availability of gambling activities in Australia from 2020 until 2022, with land-based gambling venues temporarily closed and major national and international sporting codes suspended. Gambling data should be considered in the context of COVID-19 related restrictions.

### Point of consumption tax

Changes in the way the wagering industry is structured, including the growth of online wagering, have led all jurisdictions, except the Northern Territory, to introduce a point of consumption tax.

### 1.3. Cautionary note

While all care has been taken in the preparation of AGS, each jurisdiction has its own systems, processes and reporting methods, and the availability of data can vary. Thus, care should be taken when comparing data between jurisdictions.

All tables should be read in conjunction with the Explanatory notes. In some instances, data contained in previous editions have been corrected or amended. These corrections or amendments are noted within the relevant table(s).

### 2.2. Glossary

The following terms are used in AGS:

Casino	Figures represent wagers at casinos and include wagers on table games, gaming machines and keno systems.
Casino turnover	For the purposes of this report, casino turnover is represented by handle, which is the amount of money exchanged for gaming chips at a gaming table. Unfortunately, it is not possible to measure the total amount wagered (including re-investment of winning bets) at table games. Therefore, care should be taken if analysing casino turnover figures.
Expenditure	These figures relate to the net amount lost or the amount wagered less the amount won. Alternatively, it is the gross profit due to the operators of each form of gambling.
Gambling	The placement of a wager or bet on the outcome of a future uncertain event. Gambling includes gaming and wagering activities. The statistics presented in this publication are for legalised regulated gambling. In addition, the statistics for each individual state or territory include turnover and expenditure generated by overseas and interstate visitors as well as those generated by residents of that state or territory.
Gaming	All legal forms of gambling other than wagering, such as lotteries, gaming machines, casino, interactive gaming and minor gaming.
Gaming machines	All jurisdictions, except Western Australia, have a state-wide gaming (poker) machine network operating in clubs and hotels. The data reported under this heading <u>exclude</u> gaming machine data from casinos.  Gaming machines accurately record the total value of bets on gaming machines, including bets made using credits won during play. Turnover is the amount of money bet, regardless of whether that money is won or lost. Turnover does not represent player losses. Thus, turnover is an actual figure for each jurisdiction. In most jurisdictions, operators must return

at least 85 per cent of wagers to players as winnings, either by cash or a mixture of cash and product over the lifetime of the gaming machine. In some jurisdictions, gaming machines may be linked together to offer major jackpots.

Government revenue	The revenue received by state governments from gambling activities that are subject to state taxes and levies.
Gross household disposable income	<p>Household disposable income (HDI) is the gross household income less:</p> <ul style="list-style-type: none"> <li>• income tax payable</li> <li>• other current taxes on income, wealth etc.</li> <li>• consumer debt interest</li> <li>• interest payable by unincorporated enterprises and dwellings owned by persons</li> <li>• net non-life insurance premiums</li> <li>• other current transfers payable by households.</li> </ul> <p>When interpreting gambling figures as a proportion of HDI, by state and territory, users of the data should note that such data represent expenditure within the jurisdiction concerned, and therefore should not be adjusted for interstate or international gamblers. No relevant data are collected on interstate gamblers.</p>
Interactive gaming	Gambling on activities conducted via the internet. It specifically excludes wagering in the form of racing and sports betting, keno and lotteries via the internet. Interactive gambling services provided to Australian residents by an internet casino are banned under the Commonwealth <i>Interactive Gambling Act 2001</i> (IGA) which came into effect in August 2001.
Keno	Keno is a game where a player wagers that their chosen numbers match any of the 20 numbers randomly selected from a group of 80 numbers via a computer system or a ball-draw device. Keno payouts are established by rules and consist of a fixed pay scale (independent of the total wager made on the game) and, in some cases, a jackpot component.
Lotteries	Includes lotteries, lotto, pools and instant scratchies. In June 2018, pools was withdrawn from the Australian lottery market.
Minor gaming	The collective name given to raffles, bingo, lucky envelopes and the like.
Point of consumption tax (on Wagering)	A tax collected from betting operators in all states and territories, except the Northern Territory, to generate revenue from wagering. "Point of consumption" means the tax is payable where the bet was placed, although in some jurisdictions, operators are permitted to rely on the address information of account-based customers. Gambling products including gaming machines, casino games and lotteries are not subject to the tax. Also refer to Section 1.2.

**Population** Mean estimates of the population aged over 18 years are presented below. The same caveat relating to the influence of visitors on the estimates reported in the Household disposable income (HDI) tables is also relevant to the interpretation of those reported in the per capita tables.

**'Real' variables** All dollar figures are given in nominal terms except where a table is denoted as being in real terms. Real dollar figures have had the effects of inflation removed. These values are calculated by specifying a base year (in this instance 2022–23) and 'deflating' each previous year by the Consumer Price Index (CPI). This means that all data in a table showing real values may be compared directly, the effects of inflation having been removed.

The CPI is a measure of change over time in the retail price of a constant basket of goods and services which is representative of consumption patterns of households in metropolitan areas.

Turnover	An expression used to describe the amount wagered. This does not include any additional charges that may also be paid at the point of purchase, such as selling agents' commission in the case of lotteries (except where noted in tables). Electronic gaming machine (EGM) turnover, relates to credits played in an EGM, rather than the amount of money inserted into the EGM.
Wagering	All legal forms of gambling on racing, sporting events and other approved events (e.g., elections). Wagering includes all the racing and sports betting activities.

#### New developments

##### Wagering taxation and racing industry funding arrangements

To give effect to the changes to wagering taxation and racing industry funding arrangements outlined in the 2022-23 NSW State Budget, the State Revenue Legislation Amendment Act 2022 No 32 amended the *Betting Tax Act 2001* and *Totalisator Act 1997* to align the rates of the Betting tax and the Point of Consumption tax (POCT) at 15 per cent (the previous taxation rates for totalisator-derived odds, fixed-odds and POCT were 19.11%, 10.91% and 10% respectively) The funding mechanism for the racing industry also changed from 2% of taxable net wagering revenue to 33% of POCT revenue. These changes took effect on 1 July 2022.

##### National Consumer Protection Framework implementation in NSW

The Racing and Gambling Legislation Amendment Act 2022 No 22 amended the *Betting and Racing Act 1998* to implement the third tranche of measures contained in the National Consumer Protection Framework for Online Wagering (NCPF). This was the second set of measures implemented by the States and Territories. These reforms introduced mandatory staff training requirements for Betting Service Providers (BSPs); prescribed that gambling advertisements contain an advisory statement; and imposed new requirements on BSPs to provide activity statements to account holders. To give effect to the new advisory statement requirements in the regulations, the Betting and Racing Amendment (Advisory Statements) Regulation 2022 was passed to amend the recently remade Betting and Racing Regulation 2022.

## Wagering regulation remakes

Regulations in NSW are subject to automatic repeal over time to ensure that they remain relevant. The Totalisator Regulation 2022 and Betting and Racing Regulation 2022 were introduced to replace repealed Regulations. The new regulations largely carried over the provisions of their predecessors. One key change was the introduction of penalty notices for breaches of the Totalisator Act 1997 and Betting and Racing Act 1998 respectively.

## Casino regulation reforms

The Casino Legislation Amendment Act 2022 and Casino Control Amendment (Miscellaneous) Regulation 2022 amended the Casino Control Act 1992, Casino Control Regulation 2019 and Gaming and Liquor Administration Act 2007 to implement various recommendations from the Casino Inquiry Report completed by the Hon Patricia Bergin AO SC (Bergin Report). Among other things, these reforms established a new independent regulator, the New South Wales Independent Casino Commission (NICC), and extinguished compensation triggers in the existing legislation in relation to regulatory action taken by the NSW Government.

## Cap on gaming machine entitlements

The Gaming Machines Amendment Regulation 2023 (SI 297) amended the Gaming Machines Regulation 2019 to reduce the state cap on the maximum number of Gaming Machine Entitlements from 99,000 to 95,994.

## Responsible Conduct of Gambling Training

The Gaming Machines Amendment (Responsible Conduct of Gambling Training) Regulation 2022 (SI 798) amended the Gaming Machines Regulation 2019 to introduce a new, tiered training framework for Responsible Conduct of Gambling (RGC) courses. The new courses aim to support frontline staff, supervisors, and managers in gaming related roles by ensuring staff are trained at the appropriate level.

## General industry information

COVID-19 continued to have a major impact on the NSW gambling industry in 2021-22, with COVID-19 restrictions in place until 11 October 2022 significantly reducing the availability of land-based gaming.

During 2021-22, various COVID-19 closures and restrictions continued to apply to hotels, clubs and casinos. These restrictions impacted all forms of gambling activity at these venues, including gaming machines, table games, keno and wagering. Even when open, gaming venues were typically operating at reduced capacity due to social distancing rules and capacity constraints.

The restrictions that applied in 2021-22 were fully removed by 2022-23. Consequently, the gambling data reported in the 39th edition of AGS should be considered in the context of COVID-19 related restrictions.

In response to the Bergin Inquiry into Crown Casino, the NSW Government committed to implementing the recommendations, including the creation of a standalone independent casino regulator, the NSW Independent Casino Commission (NICC). The NICC was created as part of reforms to the Casino Control Act 1992, and commenced operations from 5 September 2022.

### General industry information

Introduction of new Keno Licensee:

Keno licences were awarded to two new licensees in April 2022, namely Lottoland Australia Pty Ltd (Lottoland) and The Lotteries Corporation (TLC). Lottoland's keno offering was made available to Victorians in November 2022 and TLC introduced its online keno offering to Victorians in February 2023.

#### Impacts of COVID-19 restrictions:

- There was a partial lockdown between July to October 2021.
- The COVID-19 restrictions ceased in November 2021.

Consequently, the gambling data for 2021-22 reported in the 39<sup>th</sup> edition of AGS was impacted by these restrictions/closures. There was no COVID-19 impact on 2022-23 data.

#### Junket Operation and Royal Commission into the Casino Operator and Licence:

In November 2020, the Casino operator announced a decision to permanently cease dealing with international junket operators, until any such operator had been licensed or authorised by the regulator in the jurisdictions in which it intended to operate. In April 2021, the Casino operator was directed not to recommence junket operations until it applies to and receives permission from the regulator to do so.

Later in 2021, Parliament passed the Casino and Gambling Legislation Amendment Act 2021 (No. 54 of 2021) which, inter alia, permanently banned junket operation at the Casino. The permanent banning and cessation of junkets had a significant impact on the gambling profits at the Melbourne Casino.

#### New developments

##### 2021–22

In July 2021, the Queensland Government released the Gambling Harm Minimisation Plan for Queensland 2021-25. The Plan outlines a joint effort by government, industry and community to reduce harm and support individuals who may be struggling with gambling-related issues. This includes an emphasis on industry social responsibility and the adoption of technological, collaborative and systemic approaches to the minimisation of gambling related harm.

In December 2021, the Gaming Machine Regulation 1998 was amended to allow for electronic payment of gaming machine winnings. Amounts in excess of the venue's cash payment limit must be paid in a way that ensures the payment is not available to the player until after the authorised gaming hours of the licensee for the day on which the payment was incurred have ceased.

##### 2022–23

In October 2022, the Queensland Parliament enacted changes to the *Casino Control Act 1982* to address casino integrity issues and restore public confidence in Queensland. *The Casino Control and Other Legislation Amendment Act 2022* (Amendment Act) enhanced regulator oversight of casinos by providing significantly stronger information gathering powers, and by requiring casinos to pro-actively co-operate with the regulator and self-report breaches. The Amendment Act also significantly expanded the range of disciplinary actions that could be applied in response to serious misbehaviour by casino entities, including the availability of pecuniary penalties up to \$100M fine and the appointment of a special manager. These disciplinary options were employed against The Star Entertainment Group Limited (Star) in December 2022, when Star was found unsuitable to be associated with a casino licence in Queensland.

The Amendment Act also provides the exclusive sports wagering licensee under the *Wagering Act 1998* with the ability to conduct wagering on virtual events, such as simulated horse races and sports, though the amendments had not commenced as of 30 June 2023.

#### General industry information

##### Changes affecting gaming machine operations

*New gaming machine licence conditions.*

Following the roll-out of facial recognition technology across gaming venues, the Liquor and Gambling Commissioner (Commissioner) became aware that the installation of equipment used in connection with these systems in some gaming venues may cause facial recognition system alerts to be displayed on devices (such as surveillance monitor, screens, tablets, smartphones etc.).

Due to the installation of this equipment which is often behind service areas etc., the alerts or images of barred persons could inadvertently be displayed and viewed by the public. The Commissioner considers that this is not appropriate and has as a result, imposed a new (Attachment B) licence condition to prevent this from occurring.

At the same time, the Commissioner imposed new (Attachment B) licence conditions in relation to:

- withholding and dealing with winnings from minors
- lawful redemption of credits
- correct operation of facial recognition systems
- use of devices to receive alerts from facial recognition systems
- retaining copies of barring orders
- identity of barred persons
- notice of breach of barring order
- withholding and dealing with winnings from barred persons
- requirement to have documented procedures.

The Commissioner declared that any contravention of, or failure to comply with such a condition may constitute an expiable offence.

##### *Updated Gambling Administration Guidelines – Installation and operation of Facial Recognition Technology*

As reported previously, from 3 December 2020, the holder of a gaming machine licence must for the purposes of identifying barred persons entering a gaming area, operate a facial recognition system if the gaming machine licence for the premises authorises the operation of thirty (30) or more gaming machines where anyone (1) of which may be operated by the insertion of a banknote. Licensees which are not subject to this requirement may choose to voluntarily operate a facial recognition system for the same purpose.

The Commissioner has issued updated gambling administration guidelines for gaming machine licence holders and facial recognition system providers, setting out the requirements and expectations for installing and operating facial recognition systems. If a facial recognition system is in operation, any device which is installed or utilised by the system

to capture the facial image of a person entering or who has entered the gaming area must be located on the licensed premises:

- in such manner which affords the best opportunity for the facial image of each person entering or who has entered the gaming area to be captured, and
- be positioned to allow for changes in external and internal lighting conditions or where poor lighting conditions are generally present.

Licensees were encouraged to consider the installation and use of such devices to provide secondary coverage of the gaming area to enable the system to identify a barred person who has not been identified when entering the gaming area, for example due to the design of the entry to the gaming area or where a barred person takes steps to avoid detection.

#### Forfeiture of certain gaming machine winnings and jackpots

On 9 December 2021, the final stage of the previously reported Government's gambling reform program commenced with the introduction of new requirements for dealing with unredeemed gaming machine Ticket-in-Ticket-out (TITO) tickets and certain residual jackpot amounts.

The latest changes require certain gaming machine winnings and jackpot amounts to now be forfeited to the Commissioner and paid to the Gambler Rehabilitation Fund (GRF). This includes:

- expired gaming machine TITO tickets with a value greater than \$1 when the total value of expired tickets for the venue is \$750 or more
- any gaming machine winnings of \$50.01 or more that remain unclaimed on a gaming machine after 24 hours
- the amount of any residual jackpot (excluding any start-up value) of \$10,000.01 or more when a game or gaming machine is decommissioned (i.e. as a result of a game change or gaming machine changeover).

#### Changes for expired TITO tickets

Following consultation with industry bodies representative of gaming machine operators, changes were made to the Gaming Machines Regulations 2020 to make it easier for licensees to better manage dealing with expired TITO tickets.

As a result of these changes, only expired TITO tickets with a value of \$1 or more are now required to be forfeited to the Commissioner and paid to the GRF.

Licensees will also only be required to make this payment when the total value of expired tickets in a relevant month is \$750 or more (previously \$50).

Example— if is assumed that the total value of expired TITO tickets for a gaming venue for the five months between February and June was:

- \$112.50 (Feb)
- \$370.32 (Mar)
- \$280.15 (Apr)
- \$75.05 (May) and
- \$1275.00 (June).

The licensee would only be required to forfeit the cash value of these tickets when the total value has accumulated to \$750 or more. In the example above, a payment would need to be made by 31 May and 31 July.

If the total value of expired tickets is less than \$750, the licensee is not required to pay the Commissioner, however those tickets will be carried over and included in the calculation in the following month.

It is now a gaming machine licence condition that these payments must be made online using an online payment portal. The Commissioner has determined that any contravention of, or failure to comply with such a condition may constitute an expiable offence of \$1,200.

The Commissioner pays these forfeited amounts to the Gamblers Rehabilitation Fund (GRF). The GRF funds programs and initiatives which aim to minimise problem gambling and offer services to those affected by gambling harm including prevention, early intervention, and counselling and treatment programs for problem gambling.

### Changes for Cash Redemption Terminals

The latest update to the Independent Gaming Corporation's (IGC) central monitoring system means that the monitoring system can now support the operation of up to two (2) cashable ticket redemption terminals (CRT) at the same gaming machine venue.

A CRT allows a customer to redeem a ticket issued by a gaming machine and in some cases may provide a banknote breaking facility instead of using the venue cashier.

While CRTs are able to supplement cashier operations, it is still an offence to allow a CRT to be able to be operated between the hours of 2am and 8am.

### Review of the Approved Trading System

A review of the Approved Trading System for gaming machine entitlements was completed, with the Commissioner submitting his report of findings to the Government for consideration.

The review, which was informed by valuable contributions from industry peak bodies representing gaming machine operators, explored various options for modifying the current trading system. In particular, options that may have a greater likelihood of achieving a reduction in the number of gaming machines in South Australia to 13 081.

It is expected that a copy of the report will be presented to State Parliament in the first half of 2022.

### **Gambling Harm Investment Plan 2021-2026**

Following changes to the way that gambling is regulated in South Australia, the Government committed to providing additional funding of \$1M per annum to the GRF.

The fund is administered by the Office for Problem Gambling (OPG) within the Department of Human Services and funds programs and initiatives which aim to minimise problem gambling.

In a first, the new laws also commit to requiring investment of the GRF in prevention, early intervention, public education and gambling research.

The OPG has developed the Minimising Gambling Harm - Investment Plan 2021-26, setting out the steps that OPG will take over the next 5 years to prevent and minimise gambling harm in South Australia.

## **2022-23**

### **New developments**

#### **Independent review into SkyCity**

##### *Commencement of review*

SkyCity Adelaide Pty Ltd (ACN 082 362 061) ('SkyCity Adelaide') holds the licence to operate the casino located on North Terrace, Adelaide (SkyCity Adelaide).

SkyCity Entertainment Group Limited is a New Zealand based company and is the ultimate holding company for SkyCity Adelaide (SEGL).

Pursuant to section 22(2) of the *Casino Act 1997* (Casino Act), the Liquor and Gambling Commissioner (Commissioner) must keep under review the continued suitability of the licensee and the licensee's close associates, and carry out the investigations he or she considers necessary for that purpose.

Commissions of Inquiry have been undertaken in New South Wales, Victoria and Western Australia into the Casinos operating or proposing to operate in those states and a further inquiry was about to commence in Queensland.

The Inquiries to date highlighted significant failings on the part of Crown Resorts as operators of Crown Casinos.

In addition, Star Entertainment Group was, at the time, the subject of an inquiry in NSW where significant failings have been identified.

A number of the matters raised to date extend beyond any one organisation and point instead to broader systemic issues within the casino industry.

Queensland Government Statistician's Office

Therefore, the Commissioner considers it necessary to carry out an investigation for the purpose of keeping under review the continued suitability of SkyCity Adelaide and its close associate, SEGL.

The Honourable Brian Martin AO KC has been appointed to conduct an investigation under section 22(2) of the Casino Act in regard to the suitability of SkyCity Adelaide and SkyCity Entertainment Group Limited.

The investigation is into the suitability of SkyCity Adelaide to continue to hold the casino licence under the Casino Act and the suitability of SkyCity Entertainment Group Limited to continue to be a close associate of SkyCity Adelaide.

The Commissioner delegated his powers and function under sections 22 and 23 of the Casino Act to Mr Martin.

In accordance with that delegation, Mr Martin is to investigate the matters set out below:

- Whether SkyCity Adelaide is a suitable person to continue to hold the casino licence under the Casino Act
- If SkyCity Adelaide is not a suitable person to continue to hold the casino licence under the Casino Act, what changes, if any, are required for it to become a suitable person to continue to hold the casino licence under the Casino Act
- Whether SEGL is a suitable person to continue to be a close associate of SkyCity Adelaide
- If SEGL is not a suitable person to continue to be a close associate of SkyCity Adelaide, what changes, if any, are required for SEGL to become a suitable person to continue to be a close associate of SkyCity Adelaide
- Any matter reasonably incidental to the matters set out above.

Mr Martin may decide not to investigate or not to continue to investigate a particular matter to the extent that he is satisfied that the matter has been, is being, or will be, sufficiently and appropriately dealt with by another investigation, inquiry or proceeding,

Mr Martin is to provide the Commissioner with a written report of his findings of the investigation by 1 February 2023 unless an extension is negotiated between the Commissioner and Mr Martin.

#### Update on the review

On 7 February 2023, the Commissioner confirmed he has received preliminary materials from Mr Martin in the independent investigation.

While Mr Martin's investigation has been separate from the proceedings initiated by AUSTRAC in the Federal Court against SkyCity for alleged serious and systemic non-compliance with Australia's anti-money laundering and counter-terrorism financing (AML/CTF) laws, there is clearly some overlap that need to be considered.

Therefore, Mr Martin advised the Commissioner that until the resolution of the AUSTRAC proceedings, it is not possible to determine reliably the question of suitability. On that basis, the Commissioner put on hold the investigation with regard to an overall determination of suitability.

In the meantime, the Commissioner wrote to SkyCity relating to the allegations raised in the AUSTRAC proceedings and the preliminary matters raised in Mr Martin's investigation.

#### *Direction issued to SkyCity Adelaide*

On 29 May 2023, the Commissioner directed SkyCity Adelaide to appoint a suitably qualified independent expert as the Independent Monitor to review the operator's anti-money laundering and counter-terrorism financing and host responsibility enhancement programs.

The independent expert will also monitor SkyCity Adelaide's implementation of those enhancement programs and SkyCity Adelaide's compliance with its anti-money laundering and counter-terrorism financing and gambling harm minimisation obligations.

The Commissioner issued the direction following careful consideration of issues identified in the proceedings brought against SkyCity Adelaide by AUSTRAC in the Federal Court and preliminary materials from Mr Martin's investigation.

The Independent Monitor will be able to seek amendments to the enhancement programs if it is not satisfied with their contents, before it is considered and approved by the Commissioner.

The Independent Monitor will report back to the Commissioner on implementation of the enhancement programs and SkyCity Adelaide's compliance with its regulatory obligations.

The Independent Monitor will not displace the role of the SkyCity Adelaide Board, but will monitor its enhancement program implementation and operations to ensure that these objectives are met.

The Commissioner is currently working with SkyCity Adelaide in relation to the selection and appointment of the Independent Monitor.

Queensland Government Statistician's Office

In October 2022, the Liquor and Gambling Commissioner commenced a review of all loyalty programs operating in hotels and clubs in South Australia.

Many of the loyalty programs had been approved by the former Independent Gambling Authority, and some of these approvals dated as far back as 2012.

The Code under which these loyalty programs had been approved have evolved significantly over time, and it was appropriate to consider whether these programs continued to meet the requirements of the current Codes.

The review highlighted a number of concerns in relation to the operation of loyalty programs in South Australia, including a lack of clear information being provided to loyalty members around their gambling activity.

As a result and following consultation with industry bodies and loyalty program providers, the Code was varied on 30 March 2023 to include additional requirements for providers of an acceptable loyalty program as follows:

- Activity statements must be provided at least quarterly to an active member by email or ordinary post within 7 days of the end of the activity period.
- Activity statements must include information that is clear and easily understood, including total amount bet and won, overall net win or loss, total number of days gambled and total amount of time the loyalty card was active.
- Information about support services and customer protection tools must be included on activity statements.
- Activity statements are not to be provided to a person who is barred, or whose account has been cancelled, locked, disabled or deactivated.
- Activity statements must be provided to a member at any time on request.
- Activity statements must be provided to the Commissioner within 7 days on request to assist in determining a request for barring.
- The variation to the Code also amends the requirements regarding the display of responsible gambling messages on automatic teller machine (ATM) and cashable ticket redemption terminal (CRT) screens so that:
  - Each ATM must operate so that when idle, a full screen responsible gambling message approved by the Office for Problem Gambling is displayed at least 20 percent of the time.
  - Each CRT must operate so that at least half the available screen space displays a responsible gambling message approved by the Office for Problem Gambling at all times.

#### Perth Casino Royal Commission

The Final Report of the Perth Casino Royal Commission (Royal Commission) was tabled in State Parliament on 24 March 2022. The State Government tabled its response to the Royal Commission recommendations on 16 March 2023. A total of 49 of the 59 recommendations were supported; eight were supported in principle; and one supported in part. One recommendation does not require a State Government position as it is only relevant if the prohibition on poker machines is lifted.

The Government has delivered some reforms in response to the Royal Commission findings, and further reforms are planned for the future. The Casino Legislation Amendment (Burswood Casino) Act 2022 passed by Parliament in September 2022. It amended the Gaming and Wagering Commission Act 1987 and the Casino Control Act 1984. Key elements of the legislative amendments included the establishment of an Independent Monitor to remediate the operations of the casino; imposing greater penalties for non-compliance including lifting the maximum fine from \$100,000 to \$100 million; enabling an independent Chairperson to be appointed to the Gaming and Wagering Commission (GWC) and a deputy Chairperson to be selected from its membership; enhancing powers for the Minister to direct the GWC in relation to the Perth casino and the Royal Commission; and enhancing the powers of the GWC to direct the Perth casino licensee about the management and operation of the casino.
